About Me

I have worked as a Backend Developer and Quality Assurance Engineer in various companies for more than 1 year. I have participated in the development, design, testing, and problem solving of various projects. I am looking for a job as Backend Developer and Quality Assurance Engineer.

Education

Azerbaijan State Oil and Industry University
Process Automation Engineering (SABAH GROUPS)
currently a student

"Programming Camp" in cooperation with
"Asan Könüllülər Təşkilatı" Organization and
professional programmer Elshad Agazade
Python Programming language.

Perfect Academy - PL/SQL Developer

We learned how to create and maintain databases, ensure data security, test databases, merge database data, and troubleshoot errors.

Israel Azerbaijan Training Center

Quality Assurance Engineering, Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), preparation of test case, functional and non-functional testing. Designs automated tests to check the functionality of web and mobile applications, writes scripts, installs testing protocols, and provides effective test automation solutions. Work with Jira Software, Testrail, Backlog.

Volunteer Experiences

ASAN Service Master 1 November 2019 - January 2020

- I also volunteered at ASAN 3 and was awarded a certificate in the end.

UEFA EURO 2020 May 2021 - July 2021

- I volunteered as a Mobility Maker at UEFA football matches and was awarded a certificate.

ALLIANCE OF AZERBAIJANI VOLUNTEER ORGANIZATIONS

- I am working in an internship as a software engineer.

Certificates

PHP & MySQL - Certification Course for Beginners.
Laravel 8 Vuejs & RESTful API.
E-Bacarıqlar - GoldenPay.
Microsoft - Digital Literacy.
